

# FRCA Examinations

## Additional Educational Training (AET Form 1)

### Notes on completion

- 1 To meet eligibility at the sixth (final) attempt at any FRCA examination, a candidate must provide the Board of Examiners with evidence of a plan of additional educational experience/training which is expected to be achieved before the next intended re-sit. Please note under normal circumstances the College would not recommend re-applying at the next sitting.
- 2 Additional educational training must be as follows:
  - a attendance at a recognised FRCA course, either locally or nationally
  - b practice sessions at the relevant component. Evidence of modules undertaken in e-Learning Anaesthesia (e-LA) (if applicable) (available in UK only)
  - c further clinical exposure and anaesthetic training as appropriate for the relevant examination component.
- 4 Proof should be provided by the submission of this form, which must be agreed and signed by a College tutor or supervising anaesthetic consultant and received by the College at least three months prior to the published date of the next intended examination.
- 5 Before completing this form, the College tutor or supervising anaesthetic consultant, in consultation with other hospital anaesthetic trainers, must hold a discussion with the candidate and giving serious consideration to previous examination results and shortfalls, agree that following additional training another attempt at the examination is recommended.
- 6 The College tutor or supervising consultant must agree to assist in the implementation of a realistic and achievable plan of additional training which must meet the criteria set out on this form.
